DEPARTURE TAXES & FUEL SURCHARGES – These Taxes must be added to your total airfare cost

This guide shows airfare related taxes and fuel surcharges that were applicable at time of printing and must be included and paid for with your airfare. These taxes vary in price due to different airline security charges, different flight routing and varying fee structures at different airports. There may also be fluctuations (from week to week) with taxes issued in overseas currencies. Additionally governments also have the right to amend taxes without notice. An accurate price will be provided with your airfare quote or booking when your exact travel arrangements are known, but note (as mentioned above) this is still not a guaranteed fixed price until your airfare is actually ticketed. Value Tours will endeavour however, to hold prices constant (within reason) to minimise inconvenience.
